**Question:**

**When does a dispatch/CAD system make for good Records Management?**

**Answer:**

**NEVER**

**Why do we say this?**

**Because Chiefs routinely *tell us.***

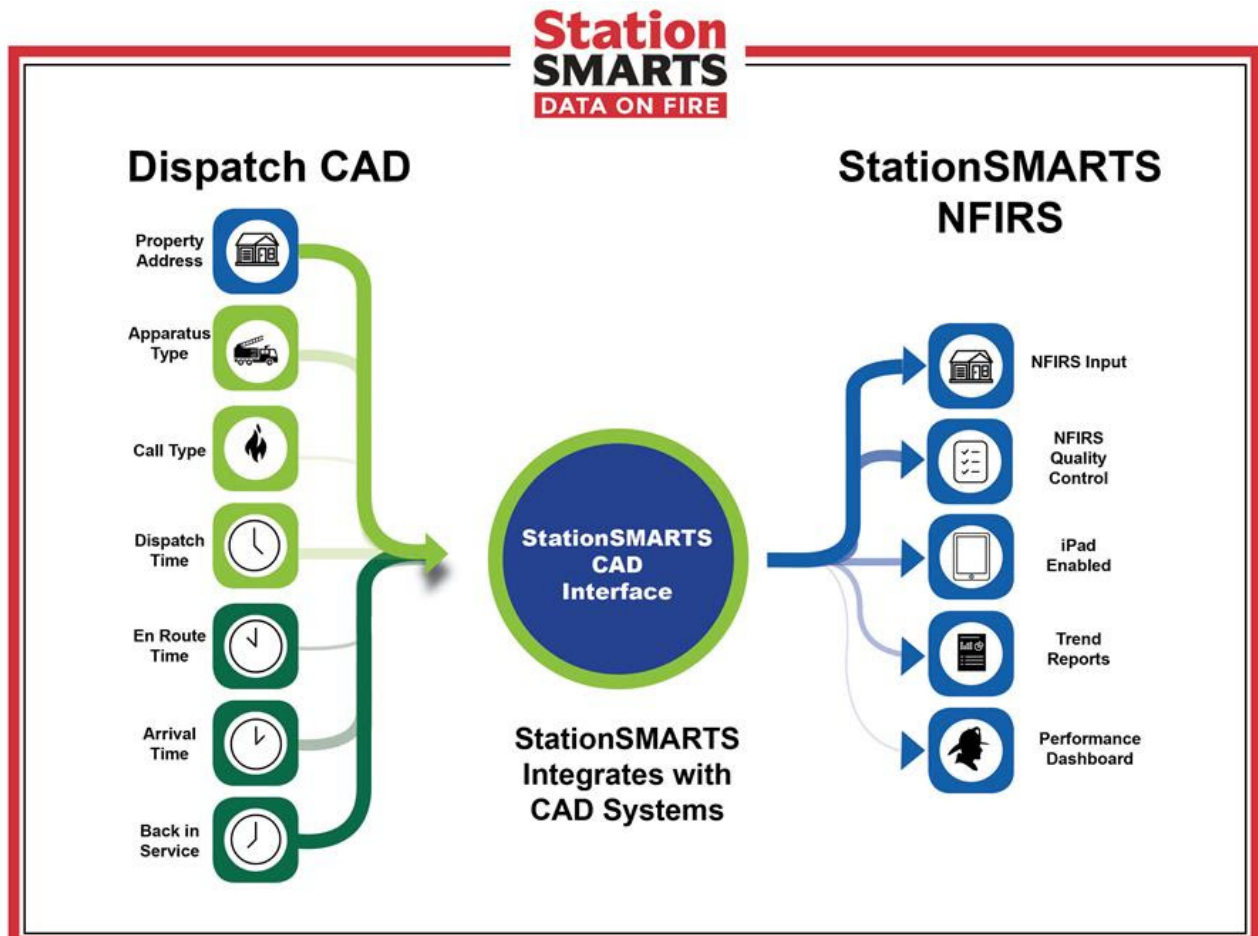

**CAD vendors have deep expertise in dispatch operations and a number of them**

have built excellent CAD systems, but we've yet to have a Chief tell us his CAD system is an effective management tool for his operation.

## Why not use best-of-breed systems?

One dedicated solution for dispatch/CAD operations with a connection to StationSMARTS:

A comprehensive and unified, cloud based, mobile Records Management System.

**StationSMARTS** is focused exclusively on providing the robust management tools needed to effectively run every aspect of your day-to-day operation, from the roster and NFIRS, to tracking credentialing, along with apparatus maintenance costs.
